their rivals. In 1616, a disease brought from Europe ravaged the New England tribes, decimating two-thirds of the Wampanoag population. Distrust of the Europeans was so high that any alliance with the colonists would have been entered as a last resort.

When Ousamequin (commonly called Massasoit) of the Wampanoag signed a peace treaty with the Pilgrims in March

1621, he did it grudgingly, believing that this was the only way to save his people from the neighboring Narragansett tribe. Yet, for all the tension and distrust between the Wampanoag and the colonists, one thing is certain: the treaty lasted for decades. The Pilgrims and Wampanoags enjoyed lasting peace and prosperity for as long as the original signers of the treaty lived.

Turning of Catterntide

November 25 was celebrated during the Middle Ages as Catterntide, a holiday celebrating St. Catherine, the patron saint of lacemakers. Celebration of Catterntide has lately enjoyed a resurgence in Britain, especially the tradition of baking Lacemaker's Cattern Cakes, cookie-like cakes that are spiced with cinnamon, flavored with fruit, and sprinkled with caraway seeds.

French celebrations are vastly different. On November 25, it was once customary for unmarried

women, known as Catherinettes, to pray for husbands starting at age 25. As a Catherinette ages, the prayer changes. It begins at age 25 with, "Lord, send me a well-situated husband; Let him be gentle, rich, generous, and pleasant." By age 30, it has become, "Send whoever you want, Lord, and I'll be happy!" Friends of Catherinettes are expected to make hats for their single friends, which they wear all day long. The holiday later evolved into a day for milliners to advertise their wares.

Thanksgiving Day (U.S.) *November 24*

The First Thanksgiving

Most Americans are familiar with the story of the first Thanksgiving. The Pilgrims, struggling in the New World, formed an alliance with the local Wampanoag tribe. One man in particular, Squanto, taught the Pilgrims to farm local crops like squash and beans—lessons that allowed the Pilgrims to survive. At the time of the autumn harvest, the Pilgrims and the Wampanoag came together for a great feast of Thanksgiving, a feast that we reenact each year as a cherished national holiday.

This classic Thanksgiving tale of cooperation and goodwill is more fable than history. The events that led to the Thanksgiving feast are far more complicated. The

Pack Mentality

What does it take to invent a holiday? Perhaps if we follow the example of a seven-year-old from New Zealand, all it takes is imagination and goodwill. In 2018, a young boy invented a holiday called Wolfenoot, celebrated on November 23. On this day, the Spirit of the Wolf hides small gifts around the house (and is especially generous to those who love dogs and wolves). You eat

Wampanoag had encountered European colonists since at least 1524, almost 100 years before the first Thanksgiving in 1621, and these encounters were far from friendly. Records show that colonists often kidnapped members of the Wampanoag and brought them back to Europe. The Wampanoag sometimes fought back, and other times attempted to negotiate with the colonists to increase their own power against

roast meat (because wolves eat meat) and bake a cake that looks like a full moon. From this small family celebration grew a movement to support animal conservation and wolf rescue organizations. Wolfenoot has become its own charitable organization, bestowing "Golden Paw" awards to charities. One child's dream of kindness has turned into a global movement.

Cran-tastic

Cranberries are largely forgotten until Thanksgiving, when they grace the table as a jelly, relish, sauce, or chutney to go with the Thanksgiving turkey. On November 23, Eat a Cranberry Day, consider all the other ways to enjoy this tasty and healthy berry.

Foods that are a vibrant color are often good for you, and the shiny, red cranberry is a case in point. Cranberries are chock full of vitamins, minerals, and antioxidants, and they famously protect against urinary tract infections (UTIs). While cranberries may taste exceedingly tart or bitter when eaten raw, they become tasty and sweet when cooked or dried.

The Native Americans living around Cape Cod of southeastern Massachusetts had harvested cranberries, known as sasumuneash, for 12,000 years before the

Wrong or Right?

On November 29, as you enter the frantic holiday shopping season, don't be surprised if a store clerk tells you that you're wrong, for it is The Customer Is Wrong Day. This day was conceived as a day to empower store workers so that they would not be bullied by customers.

The saying "the customer is always right" was coined by Harry Gordon Selfridge, founder of the London-based department store Selfridges, in 1909 as a motto to

Europeans arrived. The colonists found that the sasumuneash of New England resembled the *craneberries* of their native England, so called because the flowers resembled the head of a sandhill crane.

Cranberries grow in wetlands commonly called bogs, which require a special set of conditions to yield a harvest. Soils at the bottom of a bog must be acidic and made of peat; the bogs must have access to plenty of fresh water; and the growing season has to last from April to November, providing a cool period of dormancy. Luckily, the famous bogs of Cape Cod provide just the right conditions and climate. Cranberry sauce may be traditional for Thanksgiving, but these versatile berries also make great additions to cheesecake, muffins, pies, cheeses, rice, drinks, and plenty of other delectable recipes.

good customer service. But is the customer always right? Some argue that following this advice might lead to poorer company performance. While customer complaints should always be heard, it does not make sense for a company to change its policies based on every customer complaint. Perhaps it is best to remember that nobody is right all the time—not the customer, an employee, or

even a manager.

Red hair doesn't fade to gray, but often turns blond and then white.

Red Warning

Whether it's strawberry blond, deep burgundy, ginger, copper, or auburn, November 5 is a day to appreciate all shades of red, for it is Love Your Red Hair Day.

Red hair hasn't always been loved throughout history. It was once a widespread folk belief that redheads were witches. Fire-colored hair gave these women supernatural magic.

During the 1300s, it was commonly thought that redheads could turn copper into gold, while from the 16th to 19th centuries, redheads were associated with the devil. During the Spanish Inquisition, some believed that stealing the fires of hell gave you red hair. Only 2% of the population has red hair. It is likely that scarcity bred feelings of distrust of redheads.

Camel Culture

Every November while the weather is cool before the long, heat of the desert summer, the city of Pushkar in Rajasthan, India, hosts the Pushkar Camel Fair, one of the largest livestock fairs in the world. It is an event of such cultural importance that 200,000 visitors attend each year.

The masses are greeted by thousands of camels. Camels, those great "ships of the desert," are washed, shaved, and dressed in bright and beautiful cloth, jewelry, bells, and bangles. They are then paraded through the streets and auctioned to the highest bidders. Not all the camels are sold, however. Many participate in Pushkar's famous camel races, while the most beautiful camels compete in a beauty pageant.

Where the livestock auctions were once the sole focus of the fair, they are today a smaller part of a larger cultural extravaganza. Art exhibitions, a

hot-air balloon show, a half-marathon, musical performances, a "longest mustache" and "bride and groom" competition (where couples are tested on their knowledge about each other) are the modern fair's highlights.

The city of Pushkar is an attraction even without the Camel Fair. It is mentioned in the Ramayana and the Mahabharata, two Hindu texts of significance, and is therefore a holy pilgrimage site. Legend states that Lord Brahma the creator, searching for a site for the creation of the universe. dropped a lotus flower and it fell upon Pushkar. At the spot where it fell, a lake formed. During the Camel Fair, thousands of pilgrims visit Pushkar Lake for a ceremonial bath that is believed to lead the bather to salvation. Whether you come for salvation or livestock, Pushkar's famous Camel Fair is sure to leave an impression.

Camel humps do not store water but rather up to 80 pounds of fat, which they can live off of more months.
