- **Tailors** programming for each resident

# WHAT IS ASSISTED LIVING?

## ASK YOURSELF THE FOLLOWING QUESTIONS IF YOU ARE CONSIDERING AN ASSISTED LIVING COMMUNITY:

- Do you need more help than family and friends are able to provide?
- Do you feel lonely or isolated at home?
- Do you worry about your safety?
- Are you tired of maintaining a home?

Assisted living communities provide long-term care for individuals who need assistance with daily living while also promoting their independence. Tasks that you manage at home yourself are taken care of by the community, such as housekeeping, laundry, meals, and more. In addition, assisted living communities are equipped to continue accommodating residents' needs and preferences as they age in a secure environment. Many communities will provide all-inclusive pricing for services, care and living utilities.

At our community, you can also pursue fun or engaging activities, outings and events while receiving as little or as much care as you need. Frequent activities, scheduled transportation services and restaurant-style dining allow you the opportunity to socialize with other residents who understand your current journey.

## WHAT IS MEMORY CARE?

Every 67 seconds, someone in the United States is diagnosed with Alzheimer's disease and with that diagnosis – or other forms of memory loss – comes uncertainty for the future. We place each resident's individual needs at the center of everything we do, offering a unique approach that our residents and their families not only appreciate, but also deserve.

Dementia is not a disease but a group of symptoms that affect mental tasks like memory and reasoning. As dementia progresses, it can have a devastating impact on the ability to function independently. It is a major cause of disability for older people and places an emotional and financial burden on families and caregivers. Memory care communities like ours significantly ease the pressure of this journey for families.

# SIGNS TO LOOK FOR WHEN IT'S TIME TO MOVE TO A MEMORY CARE COMMUNITY

**MOVING A LOVED ONE TO A MEMORY CARE COMMUNITY IS NOT AN EASY DECISION, BUT IT COULD BE THE BEST ONE FOR THEIR HEALTH, SAFETY AND HAPPINESS.**

BELOW ARE SOME SIGNS TO WATCH FOR:

**DOES YOUR LOVED ONE DISPLAY THIS BEHAVIOR?**

- Being confused, aggressive or repetitive
- Memory loss
- Sleeplessness
- Hygiene issues
- Delusions
- Extreme personality changes and sudden mood swings
- Wandering

**DO YOU NOTICE THESE CHANGES IN THEIR HOME?**

- Unusual clutter or expired food
- Unpaid bills or unopened mail
- Unusual purchases or donations
- Lapses in outdoor maintenance
- Housekeeping and laundry lapses
- Problems with pet care
- Too many stairs to live comfortably or safely
- Comments of concern from neighbors

If you are noticing these signs, consult with your doctor. The care your loved one needs may be more than what you can provide at home. The structure and social interaction at a memory care community makes a world of difference for a caregiver and the person with dementia who is feeling irritated, stressed or overwhelmed. If you or your family are considering a memory care community, please schedule a visit with our team. We are here to help you and your loved one.

# MAKING “CENTS” OF MONEY MATTERS

## OUR COMMUNITY OFFERS FINANCIAL SOLUTIONS TO ASSIST RESIDENTS IN MOVING FORWARD WITH CONFIDENCE.

### GIFT TAX EXEMPTION

Family members can assist in covering the cost of assisted living while taking advantage of the IRS gift tax exemption. Individuals can provide gifts of up to \$13,000 per person per year without paying a federal gift tax. Consultation with a tax professional is strongly advised before making financial decisions.

### LIFE CARE FUNDING

Did you know that a life insurance policy can be converted to pay for care at our community? Life Care Funding can help fund your care by converting your existing life insurance policy into an immediate, Long-Term Care Benefit Plan. Qualifying is quick, easy and there is no obligation or fee to apply. Check with your life insurance policy provider for details.

### VETERANS BENEFITS

According to the Veterans Administration (VA), wartime veterans 65 years and older and their surviving spouses may be entitled to a tax-free benefit called Aid and Attendance provided by the Department of Veteran Affairs.

The benefit is designed to provide financial aid to help offset the cost of long-term care for those who need assistance with daily activities.

If you can afford the care you need, you never have to pay it back and it is completely tax-free. It is paid directly to you by the Department of the Treasury. The best thing about this benefit is that it can be used for in-home care, board and care, an assisted living community, or a private-pay nursing home.

# HOMESTYLE VS. LIFESTYLE

A common misconception we often hear in senior living is “We are going to keep our loved one at home with sitters”. Whether using a paid service or family members to help out, costs can add up, both financially and emotionally.

**Please consider the Cost Comparison information below when considering senior living accommodations.**
