## Employee of the Month

### Wayne Connor

Wayne Connor was born in New Orleans, Louisiana and is the first person in his family to be born in the United States. Growing up in New Orleans, Wayne became an artist and a published author. His love for helping people grew as he would help care for his own grandfather who had Alzheimer's disease. Wayne received his bachelor's degree in psychology with the focus on human behavior. However, the tragic loss of his sister and grandfather pushed Wayne to want to help more people in a more bedside manner. His mother and two aunts have been nurses and physicians for over 30 years. They talked Wayne into trying to go to Nursing School, to use both degrees to help people. One aunt who lived in Nashville found a good program and talked him into moving to Nashville. Wayne graduated from TCAP Nashville three years ago. He started working at Richland facility but moved to The Goldton of Spring Hill, which he loves. We are so thankful for taking such good care of our residents.
